

Release 7.7.0

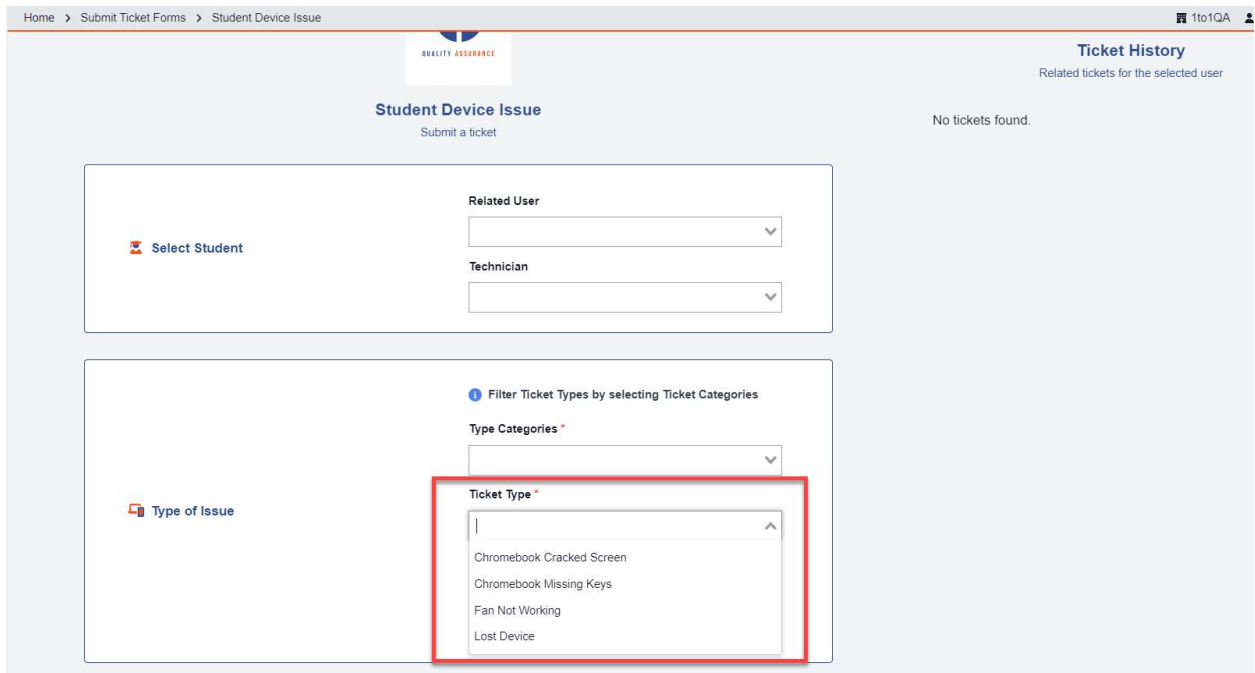

Manage Screens

- The link option to switch back to the legacy page has been removed from the following manage pages. Students, Staff, Locations, Parts, Orders, and Invoices. It will remain on the other manage pages temporarily.

Help Desk

- Ticket Type drop down is now in alphabetical order on the Submit Ticket screen.

Release 7.7.0

Imports

- Filewave API has been added as an asset import type. This feature will need to be activated by a member of Support/Implementation in order to use.

The screenshot shows the 'Filewave Device' configuration page. On the left is a navigation menu with options like Dashboard, Sites, Assets, Students, Staff, Locations, Help Desk, Parts, Invoices, Imports, Reports, and Settings. The main content area is divided into several sections:

- Standard Settings:** Includes an 'Enable' checkbox which is checked.
- Service Settings:** Includes 'Read Enabled' (checked), 'Write Enabled' (unchecked), and dropdown menus for 'Default Asset Type' (Laptop), 'Default Asset Model' (Lenovo 100e Chromebook 2nd Gen), 'Default Asset State' (Active), and 'Default Site' (QAHS). There are also fields for 'URL' and 'Access Token'.
- Data Syncing Options:** Includes a '+ Preview' button.
- Field Mappings:** A table with columns 'Source', 'Destination', 'Preserve', and 'Remove'. It contains three rows:

Source	Destination	Preserve	Remove
Serial Number	Serial Number	<input type="checkbox"/>	<input type="checkbox"/>
Device Name	Computer Name	<input type="checkbox"/>	<input type="checkbox"/>
Serial Number	Asset ID	<input type="checkbox"/>	<input type="checkbox"/>

A green 'Save' button is located at the bottom left of the configuration area.

The screenshot shows the 'Filewave Device' page with an 'Import Results' section. At the top right, there are buttons for '+ Queue Another Import' and 'Logs'. The 'Import Results' section contains a table with the following data:

Import ID	Status: Complete	Created	Updated	Unchanged	Invalid Input	Invalid Output	Invalid Records Skipped	Removed	Invalid Removed	Total	Missing Lookups	Import Date
IMPORT-1130716	<input checked="" type="checkbox"/>	0	0	4622	0	0	0	0	0	4622	0	4/4/2024, 2:00 AM

- FTP CSV Assets Import – “State Student ID” has been added to the ‘Lookup By Property’ drop down.

The screenshot shows the 'FTP CSV Assets' configuration page. It includes sections for 'Standard Settings', 'Service Settings', 'Data Syncing Options', and 'Field Mappings'.

- Standard Settings:** 'Enable' checkbox is checked.
- Service Settings:** Includes 'Lines to Skip' (1), 'Delimiter' (Comma), and dropdowns for 'Default Asset Type' (Laptop), 'Default Asset State' (Active), and 'Default Site' (QADO).
- Field Mappings:** A table with columns 'Field Name', 'Preserve', and 'Remove'. It lists 'Asset ID', 'Description', and 'Assigned To User'. Under 'Assigned To User', there is a 'Lookup By Property' dropdown menu which is highlighted in yellow and shows 'State Student ID' as the selected option.

Release 7.7.0

- Jamf Pro Mobile IOS Import Settings – “Mobile Device Name” has been added to the field mapping source drop down.
